

Bids for South Torrance Storm Drains Due Friday

Bids to construct a Torrance storm drain will be opened Friday, Supervisor Burton W. Chace said today. The drain is expected to cost about \$800,000. Bids must be submitted on three out of four possible proposals for the work, which

involves various drain lengths and a half of drainage conduit. Award of contract will be based on funds available and will take place about 10 days after the bid opening, Chace said. Scheduled for construction is a project which involves installation of about a mile

and a half of drainage conduit. Seven separate lines will be installed in portions of 238th Street, 234th Street, Ocean Avenue, Rolling Hills Road, Via Bonita, Via La Circula, Camino Del Campo, Paseo de Gracia, and Anza Avenue, Chace said.

Work will start within three weeks after the contract award and will require about eight months to finish. The project will be financed as part of the \$275 million storm drain bond issue approved in 1964, the Supervisor said.

Southwest Savings Offers Life Insurance to Savers

"Beginning April 1, our association is extending to our customers the advantages of a new low-cost term life insurance policy," announced Fred E. Edwards, president and board chairman of Southwest Savings and Loan. Eligible for the plan are Southwest Savings passbook holders with a minimum of \$2,000 in their accounts. The saver may insure his life basing the amount of coverage on his savings' balance to a maximum of \$10,000.

idends earned. Thereby, the policy holder writes no checks of his own. Up to the age of 29 years the account holder is able to hold insurance in an amount equal to three times his total savings. From 30 to 39 years old the factor is double the balance in the account, one-and-a-half times from 40 to 44 years old, an even amount from 45 to 49 years, three-quarters for persons 50 to 54, and half the account balance for those 55 to 59 years old. Eligibility is discontinued after 59, but the privilege may be extended to younger family members or business associates.

Lesson Text From Psalms

"Bless the Lord, O my soul, and forget not all his benefits: forgiveth all thine iniquities; who healeth all thy diseases; who redeemeth thy life from destruction; who crowneth thee with loving-kindness and tender mercies." This verse from Psalms is the Golden Text of this week's Christian Science Lesson-Sermon, "Are Sin, Disease, and Death Real?"

THIS INSTANT estate plan has been formed by Savings Association Life Insurance Agency, known as SALL, under the direction of Gareth W. Sadler and Abner D. Goldstine. Until Jan. 1, Sadler was California savings and loan commissioner. Goldstine was his chief deputy. Underwriting the plan is Republic Life Insurance Co. of Dallas. In addition to the issuance of the policies from Southwest's main Inglewood office, the same plan is in effect in the association's Corona, Torrance, and South Pasadena branches.

Botanist To Give Lecture

The first in a series of horticulture lectures to be presented by the South Coast Botanic Garden Foundation is scheduled Friday, April 14, at 8 p.m., Mrs. Frances Young, foundation president, announced today.

A tour of the botanic gardens will begin at 6:30 p.m., to be followed by a coffee hour, Mrs. Young said. The lecture, "California Natives and Wildflowers," will be given by Charles Luger, a Torrance resident and El Camino botany instructor. He will speak at the botanic garden clubhouse, 26701 Rolling Hills Road. Luger will illustrate his lecture with slides from his collection. There is no charge for admission and advance reservations are not required, Mrs. Young said.

FINAL LINK... Supervisor Burton Chace is pictured during an inspection tour to check the final phase of a major improvement project on Hawthorne Boulevard. Completion of the 2-mile section between Indian Peak Road and Crest Road brings to a close a \$4 million project which has provided a four-lane Highway from Falos Verdes Drive West to Pacific Coast Highway in Torrance.

Garden Checklist

1. Plant chrysanthemums in pots or in the ground for late summer and fall bloom.
2. Pinch the new growth of chrysanthemums to encourage side branching and more new growth to carry flowers.
3. Feed lawns this month and plan on feeding them once a month through summer. Frequent light feedings are better than infrequent heavy meals.
4. Plant hydrangeas now for summer bloom. Give them a rich, soil and water them frequently.
5. Clematis may be planted now. These are among the most colorful of our summer-flowering vines.
